

Testimonials

To Whom It May Concern:

Work with Us Limited, have been a sole supplier of agency staff to the operation function our business for just on two years now. We utilise a resource of between 20 and 45 staff on a weekly basis depending upon seasonality.

All of these staff supplied are inducted and validated by Work with Us in line with a pre agreed criteria to ensure that we only have staff arriving for work fit and ready for the daily challenges.

All documentation regarding time sheets are kept on site and completed on a daily basis, these are then checked at the end of the week and mailed to Work with Us by 12.00 noon Monday to trigger payments to staff. All of which enables accurate invoicing to occur which negates invoice queries.

The level of managerial input since the first 4 weeks of the contract is negligible and the main contact is now between the Work with Us office and the line supervisor, a part from the quarterly contract reviews meetings, which are all encompassing.

I would have no hesitation in recommending Work with Us as they are not just a vender but as a resource solution provider, who are able to work in partnership being capable of adding value to any operation. They have proved to be very flexible in the approach they have adopted and are always willing to support wherever possible.

I look forward to enhancing this partnership even further in the coming months to improve on what is already a very successful working relationship. I would be only too pleased for Work with us to us as a reference site for prospective new clients.
